

Dear Residents and Businesses,

We are excited to announce that MJ Church has been appointed by Wiltshire Council to construct Phases 4 & 5 of the A350 Chippenham Bypass. This project plays a key role in Wiltshire Council's long-term vision of fully dualling the A350 around Chippenham, improving traffic flow and safety for road users.

PROJECT OBJECTIVES

- Improve road safety by reducing personal injury collisions.
- Enhance journey reliability for commuters and businesses.
- Support housing and employment growth by increasing road capacity.
- Encourage inward investment by reducing delays and improving access.
- Protect the strategic role of the A350 by ensuring efficient north-south connectivity.

WORKING TOGETHER

As we prepare to begin work in May, we want to take this opportunity to introduce ourselves and reaffirm our commitment to working closely with local residents and businesses throughout the project. We understand the importance of this project to the community, and we are dedicated to delivering it with minimal disruption while maximising local benefits.

If you have any questions, concerns, or suggestions, please do not hesitate to contact me:

Jayne Hobbs – Public Liaison Officer

Email: A350@mjchurch.com

Phone: 07860 635 843

MEET THE TEAM – DROP-IN EVENT

We'd love to meet you in person and discuss the project in more detail. Join us at our drop-in session to see the plans, ask questions, and meet the people delivering this scheme.

Date: Tuesday 6th May

Venue: MJ Church Offices, Saltersford Lane Office, Chippenham SN14 0RN

Time: 3:00 PM – 7:00 PM

STAY UPDATED

We've created a dedicated project webpage where you can stay informed with:

- Monthly newsletters
- Traffic updates
- Project drawings and progress
- Community initiatives and social value commitments

Want updates straight to your inbox or phone? **Sign up for email & SMS alerts via the website!**

Visit: <https://mjchurch.com/contracting/a350-project/> or scan the QR code below and register to receive correspondence how you want it. As part of our efforts to reduce carbon footprint, we will only post letters and newsletters if requested; otherwise we will send correspondence electronically.

We look forward to working with you and keeping you informed throughout this important project.

Best regards,

Jayne Hobbs

Public Liaison Officer
