

We're now eight months into the A350 project, and we want to say a heartfelt thank you for your patience, support, and engagement so far. We know the works can be disruptive, and your feedback has helped us make improvements along the way. We'll continue working with our community to reduce disruption as much as possible and keep you updated every step of the way.

SURFACING SUCCESS ON THE A350 PROJECT

We're pleased to share that the majority of surfacing works south of Chequers roundabout have now been implemented.

Further surfacing North of Chequers roundabout is planned for early 2026.

SUPPORTING OUR LOCAL SCOUTS

The 3rd Chippenham Scouts recently experienced a leaking water pipe at their hut, and our A350 project team were pleased to step in and help. The team replaced the damaged pipe, ensuring everything is now working exactly as it should.

In the new year, we'll continue our support by working with the Scout group to assess improvements to their concrete path and access ramp.

FESTIVE BREAK AND SEASON'S GREETINGS

We will be pausing all work on the A350 project from 22nd December for the festive period. This ensures there will be no disruption to the road over Christmas and New Year, allowing everyone to travel safely and enjoy the holidays.

We would like to wish all residents a Merry Christmas and a Happy New Year.

Thank you for your continued support throughout the project, we look forward to returning to site in early January to continue our progress.

KEEP INFORMED
