

RISK MANAGEMENT POLICY

Purpose

The purpose of this policy is to:

Ensure we carry out decisions that will minimise the adverse effect of accidental losses upon our company, whilst allowing us to pursue our goals, commence and operate our programmes of work in an efficient and professional manner, keeping our employees and members of the public safe at all times.

The senior management team of MJ Church Plant Ltd has formed a risk management policy to pursue our risk management goals and objectives. These goals and objectives include:

- Avoiding exposure to accidental loss by not undertaking functions, contracts, programmes of work or activities where the potential loss is greater than the potential benefit
- Preventing loss by identifying loss exposures and implementing policies and procedures to reduce the risk of these losses occurring
- Controlling losses that do occur by:
 - Assisting and supporting injured parties
 - Developing contingency plans for possible loss scenarios
 - Proper documentation and investigation of losses
- Determining the most cost effective balance of different risk financing tools
- Raising the awareness of all board members, senior managers, employees and any subcontractors concerning risk management within our organisation. These goals and objectives will be accomplished by:
 - Holding a meeting with representatives from each department whose responsibilities will be to implement, monitor, evaluate and revise plans to achieve our goals and objectives
 - Including risk management as an agenda item for discussion at every staff meeting
- Cooperation is needed and expected from every level of management and all employees. Only by working as a team can we reduce the level of risk and continue to develop safely as individuals and as an organisation.

For & on behalf of MJ Church

S.P. Blower, Managing Director
